CHAPTER 21 -- CITY ORGANIZATION

SUBCHAPTER A -- GENERAL

§21.010. INCORPORATION AND CLASSIFICATION.

The City of Elsberry, Missouri is incorporated, and classified as a Fourth Class City. In accordance with State law, providing for optional forms of government, the City of Elsberry has adopted the Mayor-board form of government, and known as the "weak Mayor-board form." This means most administrative offices are elected, and appointments are made with consent of the board, and consequently the Mayor has little administrative power. This form of structure approximates the federal government in that it includes the concept of separation of powers (executive, legislative, and judicial) and checks and balances. The board is the basic governing unit because it levies taxes, appropriates monies, makes decisions on policy matters, and in some instances supervises the administration. The board is the legislative body of Elsberry. It adopts local resolutions and ordinances within the framework of latitude given it by State law. The laws of Elsberry are the ordinances, and these may be divided into three categories:

1. **Administrative**, dealing with the organization of government (i.e. the division of powers between administration departments, the salary scale for employees),
2. **Contractual**, such as the granting of franchises to private utility firms, and
3. **Penal ordinances**, that regulate the conduct of persons and are based on the general policy powers of the municipality to protect the health, welfare, and safety of the citizens of Elsberry. Many ordinances cover fields where State laws already operate. State laws may also be adopted by reference and incorporated into local ordinances. The City shall have power to enact all ordinances not repugnant to the Constitution and laws of this State.

Nothing in this closure shall be deemed to close information regarding expenditures, purchases, or contracts made by an agency in implementing these guidelines or policies. The City has determined that disclosure of these records would impair the City's ability to protect the safety or health of persons, and that the public interest in nondisclosure outweighs the public interest in disclosure of the records.
17. All records of existing or proposed security systems and structural plans of real property owned or leased by the City are hereby declared to be closed records under RSMo §§610.021 and 610.022.
18. All information that is voluntarily submitted by a non-public entity owning or operating any infrastructure for use by the City in order to devise plans for protection of that infrastructure, are hereby declared to be closed records under RSMo §§610.021 and 610.022 to the extent that their public disclosure would threaten public safety. Records that are voluntarily submitted by a nonpublic entity shall be reviewed by the City Clerk or Records Custodian to determine if retention of the document is necessary in furtherance of a security interest. If retention is not necessary, the documents shall be returned to the nonpublic governmental body or destroyed.
19. Notwithstanding the provisions of §§22.250.17 and 22.250.18 of the City Code, records related to the procurement of, or expenditures relating to, security systems purchased with public funds shall be open records under RSMo §§610.021 and 610.022.
20. The City has determined that the disclosure of the records closed pursuant to §§22.250.17 and 22.250.18 of the City Code would impair the City's ability to protect the security of safety of persons or real property, and that the public interest in nondisclosure outweighs the public interest in disclosure of the records.
21. All records that identify the configuration of components or the operation of a computer, computer system, computer network, or telecommunications network, and would allow unauthorized access to or unlawful disruption of a computer, computer system, computer network, or telecommunications network of the City are hereby declared to be closed records under RSMo §§610.021 and 610.022. This closure shall not be used to limit or deny access to otherwise public records in a file, document, data file, or database containing public records that are not otherwise closed. Records related to the procurement of, or expenditures relating to, such computer, computer system, computer network, or telecommunications network, including the amount of moneys paid by, or on

behalf of, the City for such computer, computer system, computer network, or telecommunications network shall be open records under RSMo §§610.021 and 610.022.

22. All records of credit card numbers, personal identification numbers, digital certificates, physical and virtual keys, access codes or authorization codes that are used to protect the security of electronic transactions between the City and a person or entity doing business with the City are hereby declared to be closed records under RSMo §§610.021 and 610.022. Nothing in this section shall be deemed to close the record of a person or entity using a credit card held in the name of the City or any record of a transaction made by a person using a credit card or other method of payment for which reimbursement is made by the City.
23. All other records that may be closed under Missouri State Law are hereby declared to be closed records under RSMo §§610.021 and 610.022.
24. Any record that is closed under this Ordinance may be made public if a majority of the Board of Aldermen affirmatively votes to make a specific document available to the public.

The following Sample Budget is not meant to be complete. It is included to illustrate how the various parts of the budget may be set up. Material in brackets in this appendix is informational and explanatory and not part of the sample format.

22 APPENDIX I -2 SAMPLE BUDGET MESSAGE

Honorable Mayor and City Council

Your Town

Missouri

{Sample Budget Message by permission of }

{Robert J. Saunders, Liberty, Mo. }

Gentlemen:

Pursuant to the requirements of Section 67.020 of the Revised Statutes of Missouri, the 1967 budget is hereby submitted. This budget has been prepared in conjunction with the department heads who have attempted to anticipate the needs of their departments realistically in relation both to available money and departmental problems.

For the sake of clarity in this presentation a summary page is provided in addition to detailed expenditures. Reference to the summary pages will reveal major highlights of each division of the budget. In addition, various plates are included to graphically present budget information.

In every respect the 1967 budget meets the requirements that the expenditures do not exceed the revenues. In addition, all bond funds are anticipate to have more than adequate supporting revenues.

The anticipated revenues derived from various sources to finance the General Fund shows a net increase of \$20,839. The total anticipated revenue in the General Fund is \$353,630. General Fund expenditures, including \$9,900 budgeted as a Contingent Account, balance with anticipated revenues.

The revenues anticipated for the Street Department in both the maintenance and capital improvements sections total \$127,400. This is a net decrease of \$4,039. The reason for this decrease may be found in the flood relief refund item carried in the 1966 budget which constituted federal participation in flood relief.

The 1967 budget represents a total yearly program of \$584,467 in the General Fund, Street Fund, Cemetery Fund, Parking System, and various bond retirement funds.

The 1967 budget is submitted with the belief that it represents a worthy effort to obtain a balanced, forward looking municipal program for the year. It represents in virtually every section a planned effort to improve the level or the quality of service now provided Your Town. The 1967 budget expresses on paper and in dollars the never ending struggle to provide Your Town citizens the most service possible for each of their tax dollars.

Respectfully submitted,

Budget Officer

CHAPTER 23 -- PERSONNEL

§23.010. PROBATIONARY PERIOD.

Each employee receiving an appointment or a promotion to a position in the service of the City must serve a probationary period of six months or 1,040 hours work before his appointment or promotion shall be considered permanent. During the employee's probationary period, the employee's work habits, abilities, attitude, promptness and other pertinent characteristics will be observed and evaluated by his supervisor, department head or other appropriate city officials. If the probationary employee fails to meet required standards of performance, he is to be dismissed, or if he is a promoted regular employee, he may be restored to the position from which he was promoted or to a comparable position. During the probationary period, the employee is not eligible for employee fringe benefits, such as sick leave and vacation, but will earn credit for those to be taken at a later date. Wages for designated holidays falling within the probationary period will be paid to probationary employees.

§23.020. SAME, DISCHARGE.

If at any time during the probationary period, the supervisor determines that the services of a city employee have been unsatisfactory, the employee may be separated from his position without the right of appeal or a hearing. The board shall notify the employee in writing at least seven calendar days before the effective date of separation of the reasons for the separation.

§23.030. SAME, TERMINATION OF PROBATIONARY PERIOD.

At the end of each employee's probationary period, the supervisor of the employee shall complete a probationary report and notify the mayor in writing that either (a) the employee has successfully completed his probationary period and is capable of performing the duties of the position satisfactorily, and is henceforth to be considered a regular employee with all rights and privileges due him; or (b) the employee has not demonstrated ability to perform satisfactorily the duties of the position and is to be separated from city government, or if promoted from another position returned to the previous or a similar position.

§23.035. DISCHARGE OF EMPLOYEES.

All employees serve the City "at will" and may be discharged at any time. Nothing in this Chapter is intended to create in an employee any "property right" cognizable under Federal law. The provisions of this Chapter are to be considered "directory" in nature, rather than "mandatory".

§23.040. APPOINTMENT AND PROMOTION.

Appointments and promotions to all classified positions shall be solely on the basis of merit, which shall be determined by evaluation of the applicant's:

1. training, education, experience and physical examination
2. oral interview, and
3. whenever practical, an examination or demonstration test
4. Physical exam verified with written statement.

§23.050. AGE.

The minimum age for employment as a probationary employee shall be eighteen years of age, unless the board shall in writing waive the requirement. The minimum age for employment of seasonal employees shall be sixteen years of age. The maximum age for employment shall be seventy years of age, unless the board shall in writing waive the requirement.

§23.060. RESIDENCE.

Employees of the City need not reside within the City, but are urged to do so. Employees must reside within the "trade area" surrounding the City. The "trade area" is bounded by mid-points between the City of Elsberry and adjoining communities.

§23.070. PROMOTION POLICIES.

All vacancies occurring in the service of the City shall, whenever possible, be filled by promotion of a qualified employee within the city service. However, the board may authorize the recruitment of applicants from outside the city service whenever he has reason to believe that better qualified applicants are available than within the city service. Promotion within the city service shall be based on the qualifications and seniority of the person being appointed. Usually, the first consideration in filling of vacancies will be given to the most qualified senior applicant in the department in which the vacancy exists. Next, consideration will be given to the most qualified senior applicant from outside the department. If no acceptable applicant is found within the city service, the vacancy will be filled from outside the city service. The criteria used in the selection of the most qualified senior applicant shall be based upon experience, performance, evaluation and, where feasible, examination.

§23.080. RELATIVES IN THE CITY SERVICE.

Two members of an immediate family shall not be employed under the same supervisor; neither shall two members of an immediate family be employed at the same time, regardless of the administrative department, if such employment will result in an employee supervising a member of his immediate family. Immediate family is defined as wife, husband, mother, father, brother, sister, son, daughter, mother-in-law, father-in-law, son-in-law, daughter-in-law, grandparents, grandchildren, stepmother, stepfather, brother-in-law, sister-in-law, uncle, and aunt.

§23.090. POLITICAL ACTIVITIES.

City employees shall not be appointed or retained on the basis of their political activity. City employees shall not be coerced to take part in political campaigns, to solicit votes, to levy, contribute or solicit funds or support, for the purpose of supporting or opposing the appointment or election of candidates for any municipal office.

§23.100. SAME, INDIVIDUAL ACTIVITIES.

No city employee shall actively advocate or oppose the candidacy of any individual for nomination or election to any municipal office, but an employee may participate in political affairs at other levels of government, provided such participation does not adversely affect his performance as a city employee. Employees are expected to exercise their right to vote in municipal elections, but shall not engage in, or participate in any other way in any municipal election.

§23.110. RECORDS.

Employees who create records of the City (as the same is defined in Chapter 22, Subchapter (C)) are required to place the records in the custody of the City. Any employee who fails to turn over such records to the city clerk upon demand may be subject to immediate discharge. An employee, upon leaving the service of the City, who retains such records is guilty of a misdemeanor and may be prosecuted in the municipal court.

§23.120. OUTSIDE EMPLOYMENT.

No full-time employee of the city shall accept outside employment, whether part-time, temporary or permanent, without prior written approval from the board. Each change in outside employment shall require separate approval. Approval shall not be granted when such outside employment' conflicts or interferes, or is likely to conflict or interfere, with the employee's municipal service. Such approval, however, shall not be arbitrarily withheld. Employees may not engage in any private business or activity while on duty. No employee shall engage in or accept private employment or render any service for private interest when such employment or service is incompatible or creates a conflict of interest with his official duties. Outside employment of Police Officers shall be reviewed and acted upon by the Chief of Police in accordance with the Board approved outside employment policy for Police Officers. The Board shall not be required to approve outside employment requests for Police Officers. However, the Board may reject any request that it concludes violates the policy.

(Amend. Ord. 07-01-2007)

§23.130. CONDUCT, WORK HABITS, ATTITUDE.

It shall be the duty of each employee to maintain high standards of conduct, cooperation, efficiency and economy in their work for the city. Whenever work habits, attitude, production or

personal conduct of any employee falls below a desirable standard, supervisors should point out the deficiencies at the time they are observed. Corrections and suggestions should be presented in a constructive and helpful manner in an effort to elicit the cooperation and good will of the employee. Whenever possible, oral and/or written warnings with sufficient time for improvement shall precede formal discipline.

§23.140. DISCIPLINE POLICY.

It shall be the duty of all city employees to comply with and to assist in carrying into effect the provisions of the city's personnel rules and regulations. No permanent employee shall be disciplined except for violation of established rules and regulations, and such discipline shall be in accordance with procedures established by the personnel rules and regulations.

§23.150. GRIEVANCE POLICY.

The most effective accomplishment of the work of the city requires prompt consideration and equitable adjustment of the employee grievances. It is the desire of the city to adjust the causes of grievances informally, and both supervisors and employees are expected to make every effort to resolve problems as they arise.

§23.160. OVERTIME AND COMPENSATORY TIME.

1. Under this Chapter, the term “exempt employees” means those employees that are exempted from the requirement to pay minimum wage and/or overtime pay under the Federal Fair Labor Standards Act , 29 U.S.C. 201, et seq.

Under this Chapter, the term “nonexempt employees” means those employees that are not exempted from the requirement to pay minimum wage and/or overtime pay under the Federal Fair Labor Standards Act , 29 U.S.C. 201, et seq.

2. The standard work week for non-exempt employees shall be five (5) days or a total of forty (40) hours per week, except police officers who shall work a standard of forty-eight and 85 hundredths (48.85) hours per 8-day work period; or forty- two and seventy-five hundredths hours 42.75 per 7-day work period. For any other work period established for the police department, full-time police officers shall work a standard work period equal to the number of hours that bears the same relationship to 171 as the number of days in the work period bears to 28.
3. Exempt employees are expected to work those hours necessary to assure the satisfactory performance of their departments, but not less than forty (40) hours per week. The chief of the police department is expected to work not less than forty-eight and 85 hundredths (48.85) hours per 8-day work period; or forty- two and seventy-five hundredths hours 42.75 per 8-day work period. For any other work period established for the police department, the Police Chief shall work the number of hours that bears the same relationship to 171 as the number of days in the work period bears to 28.

4. Nonexempt employees required to work overtime in any work period (5 or 8 days, as the case may be) will be compensated under this Section for overtime. Exempt employees will not be paid overtime compensation.
5. The department head or supervisor shall assign nonexempt employees regular work duties and responsibilities that can be accomplished within the established work day and work week without the necessity for overtime. However, occasionally assigning some overtime work may be necessary for proper performance of work duties and responsibilities. Approval of the Mayor for overtime should be obtained whenever it is practical to do so.
6. Employees may be granted equivalent compensatory time off in lieu of cash compensation for overtime worked, by the employee's supervisor – subject to the following conditions:
 - a. Compensatory time may be earned and should be used during the same year it is earned. The maximum accumulation of compensatory time is Forty (40) hours. Compensatory time is determined by multiplying the overtime hours actually worked by a factor of 1.5 (time and one-half).
 - b. All scheduled use of the accumulated time must be completed within a reasonable period, not to exceed two years. Employees may use accumulated compensatory time within a reasonable period after a written request to their supervisor if such use does not unduly disrupt the operations of the City. While generally the choice of the use of accumulated compensatory time will be mutually agreed upon by the employee and the supervisor, in the event of a conflict, work schedule demands will prevail.
 - c. Any unused compensatory time must be paid out at the higher of the wage at termination or the average of the last two years salary.
 - d. Compensatory time must be earned before it is taken. Compensatory time is not considered as time worked for over-time pay purposes.
7. No overtime shall be payable until the total number of hours in the work week have been worked. No overtime shall be paid if an employee has less than one-half hour in anyone work period.
8. Time off for vacation, holidays, sick leaves or other authorized leave does not count as time worked during a work period.

(Amd. Ord. 2-1-1985; 2017-04-001; 2018-12-001)

2. The department head or supervisor shall assign employee regular work duties and responsibilities which can be accomplished within the established work day and work week. However, occasionally some overtime work may be necessary for proper performance of

work duties and responsibilities.

3. When regular permanent employees are required to work extra or prolonged shifts, the department head may authorize compensatory time off, or he may at his option authorize overtime pay which shall be one and one-half times the employee's regular pay scale basis.
4. No overtime shall be payable until the total number of hours in the work week have been worked. No overtime shall be paid if an employee has less than one-half hour in anyone work period.

§23.170. HOLIDAYS.

1. All full-time employees of the city shall receive normal compensation for the nine legal holidays listed below. Legal holidays to be observed are:

New Year's Day – January 1
Presidents' Birthday – Third Monday in February
Memorial Day – Last Monday in May
Independence Day – July 4
Labor Day – First Monday in September
Columbus Day – Second Monday in October
Veteran's Day – November 11
Thanksgiving Day – Fourth Thursday and Friday in November
Christmas Day – December 25

2. An employee absent without authorized leave on the day preceding and/or the day following a holiday shall not receive regular compensation for the holiday.
3. Any employee of the City who shall be required to perform work or render services on regularly schedule holiday, may be compensated, at the employee's choice, with two and one-half times the employee's regular hourly rate of pay for the employee's service on the regularly scheduled holiday, or time off (hour for hour without any multiples) in lieu of the holiday missed ("compensatory time" or comp time"). The 2 ½ times is the maximum pay which shall be made for any holiday, and is not to be addition to any overtime which might otherwise be due for the same period. An employee calling in sick on a holiday that is a scheduled work day for the employee shall not get holiday pay or a substitute holiday.
4. The employee's department supervisor may designate the date the comp time is to be taken in lieu of the holiday. Such comp time shall be taken within 30 days after the scheduled holiday. The comp time may not be used on a holiday if the employee is scheduled to work on the holiday.
5. Comp time must be earned before it is taken. Comp time is not considered as time worked for over-time pay purposes.

6. For the Police Chief and full-time administrative staff whose office is located in City Hall, Christmas Eve and New Years Eve shall be holidays if they fall on a week day.
7. For the Police Chief and full-time administrative staff whose office is located in City Hall, if a holiday (other than Christmas Eve and New Years Eve) falls on a Saturday, such staff shall receive the preceding Friday as a holiday. For the Police Chief and full-time staff whose office is located in City Hall, if a holiday (other than Christmas Eve and New Years Eve) falls on a Sunday, such staff shall receive the following Monday as a holiday.

(Amd. Ord. 10-2-85; 1-2-1986; 2010-03-001; 2013-03-004; 2017-04-001; 2019-12-001).

§23.180. VACATION.

1. Every employee of the city service holding a permanent status position and having occupied such position for a period of twelve (12) consecutive calendar months shall be allowed annual vacation leave with pay.
2. Vacation leave shall be granted on the basis of the number of regularly scheduled hours in the standard work or duty week to which the employee is assigned at the time of his vacation.
3. Employees shall receive the following vacation:
 - 2 weeks of vacation after 1 year of uninterrupted service;
 - 3 weeks of vacation after 7 years of uninterrupted service;
 - 4 weeks of vacation after 12 years of uninterrupted service; and
 - 5 weeks of vacation after 20 years of uninterrupted service.
4. The above vacation shall accrue on the anniversary of the employee's most recent start date. For example, on the first anniversary of the eligible employee's most recent start date, the employee will have one week of vacation to use after the first anniversary.
5. No vacation leave in excess of that earned in one year may be carried forward to the next year, and no vacation leave in excess of that earned in one year shall be taken at one time. At least 3 months must pass before more than one year's worth of earned vacation is taken. Vacation days taken with the course of fifteen calendar days shall be deemed to be taken together whether or not it is taken on consecutive days. For example, if a two year employee has four unused vacation days that are carried over to the next year, the employee may only take up to five vacation days in a row and must wait three months after taking the fifth day before taking any of the four carryover days. This limitation on taking more than one year's earned vacation at a time may be waived by the Mayor if there are extraordinary circumstances such as illness, child care, etc. An employee may appeal an adverse decision to the Board of Aldermen if it is done in writing within five

days of the adverse decision.

6. An employee may accumulate and carry-over only one year's worth of vacation. For example, during the first year of service, an employee takes no vacation because none is earned. On the first anniversary of the employee's start date, the employee earns one week of vacation (5 days if scheduled for a five day work week). If the employee only takes three days of vacation during the second year of the employee's tenure, the employee may use an additional two days of vacation during the third year of service in addition to the one week of vacation earned during the second year of service. This makes a total of seven available vacation days during the second year of service (2 unused + 5 newly earned). If that same employee only takes one day of vacation in the third year of service, the employee has six unused vacation days, but may only carry over 5 of those days to the fourth year, in addition to the 5 days earned in the third year, for a total of 10 vacation days that could be taken in the fourth year of service.
7. Absence in excess of authorized sick leave or disability leave may, at the request of the employee and within the discretion of the department head, be charged against vacation leave allowance. If a department head or City Officer is making the request, its allowance will be at the Mayor's discretion. An employee may appeal an adverse decision to the Board of Aldermen if it is done in writing within five days of the adverse decision.
8. Records of vacation leave allowance and use shall be kept by the person responsible for the employee's payroll payment. Vacation leave scheduled shall be in regard to the seniority of employees, to accord with operating requirements and, insofar as possible, with the requests of the employees.
9. When a regularly scheduled holiday occurs during the period of an employee's vacation, the holiday will not be counted as a vacation day.
10. No two employees shall be allowed vacation leave at the same time, if both are employed under the same supervisor. City Officers shall be deemed to have the same supervisor.
11. Unless specified elsewhere in the Municipal Code, supervisors' vacations must be agreed to in advance, by the Mayor.
12. All vacations must be scheduled at least 30 days in advance of the first day of vacation leave. The Mayor may waive this requirement.
13. In calculating the above service times, only the most recent hire date shall be used.
14. An interruption in service is the voluntary or involuntary termination of the employee's employment.
15. The term "City Officer" does not refer to a police officer, other than the appointed Chief of Police. City Officers include the City Clerk, City Treasurer, City Collector, City Chief of Police, and Municipal Court Clerk.

16. Upon the separation of an employee from City service or employment who at the time of separation was entitled to vacation pay, that employee shall be paid for all unused vacation days that the employee is entitled to accrue under this Ordinance at the time of separation. Vacation days for the year in which the separation occurs shall be prorated based on the days of actual service provided by the employee in that year.

(Amd. Ord. 4-1-2000; 7-2-2005; 2013-03-004; 2019-05-)

§23.190. SICK LEAVE.

All full-time city employees, with the exception of the City Clerk and the City Collector, shall earn sick leave with full pay at the rate of one day for 208 hours worked, and the City Clerk and City Collector shall earn sick leave with full pay at the rate of one day for 26 days worked. In each case, holidays shall be counted as "worked" in determining the number of hours or number of days worked. Sick leave shall accrue from the date of employment, but shall not be taken until the successful completion of the probationary period except with the written permission of the mayor. Sick leave may never be taken in advance of earning the time. Sick leave may be accumulated up to 60 days.

1. An employee may be eligible for sick leave for the following reasons:
 - a. Personal illness or physical incapacity
 - b. Quarantine of an employee by a physician
 - c. Two days of sick leave may be used each year as personal days without the necessity of sickness, but said days may not be used in conjunction with the employee's vacation days or holidays.
2. An employee who is unable to report for work because of the reasons stated in subparagraphs (a) or (b) of this Section shall report the reason for his absence to his supervisor within ten minutes after the time he is expected to report for work. Absence as a result of the use of the personal days provided for in subparagraph (c) of this Section may be arranged for in advance as with vacation or reported within ten minutes after the time he is expected to report for work. Sick leave with pay shall not be granted unless such report has been timely made. Documentation may be required of the employee before any sick leave will be granted or payment made.
3. An employee terminating from city service shall not be allowed the use of sick leave in the last two calendar weeks of employment. Unused sick leave will not be compensated for in any way at the time of resignation or dismissal of an employee.
4. Abuse of the sick leave privilege can result in dismissal.

(Amd. Ord. 8-1-1990).

§23.200. DISCRETIONARY TRAINING LEAVE

At the City's sole discretion, the Mayor may authorize training in subjects relating to the work of the employee and which will benefit employee and the City service. The City will pay for the training, room, meals and mileage for such training.

(Amd. 2017-04-001)

§23.210. FUNERAL LEAVE.

An employee may be granted three (3) working days' leave as needed in the event of the death of his spouse, child, mother, father, sister, brother, mother-in-law, father-in-law, grandmother, grandfather, stepmother, stepfather, or stepchild. Such leave shall not be deducted from either sick leave or vacation leave. An employee shall be compensated for the funeral leave at his regular rate of pay.

(amended Ord. 02-02-2006)

§23.220. JURY LEAVE.

An employee may be granted leave with pay when required to be absent from work for jury duty or as a trial witness. Compensation for such leave shall be limited to the difference between pay received for this service and normal duty pay.

§23.230. DISABILITY LEAVE.

A permanent (full- or part-time) employee who is temporarily disabled in the line of duty shall receive pay equal to the difference between the amount received from Workmen's Compensation benefits and his normal salary amount for the period of his disability without charge against his vacation leave subject to the following conditions:

1. Provided that the disability resulted from an injury or illness sustained directly in the performance of the employee's work, as provided in the State Workmen's Compensation Act.
2. If incapacitated for his regular assignment, the employee may be given other duties with the city government for the period of recuperation. Unwillingness to accept such an assignment as directed by his department head or supervisor will make the employee ineligible for disability leave during the time involved.
3. A physician selected or approved by the City shall determine the physical ability of the employee to continue working or to return to work.
4. Disability leave shall not exceed sixty working days for anyone injury.

§23.240. VOLUNTEER FIREMEN.

All employees of the City are encouraged to participate as members of the volunteer fire department. Employees called away from the city service to duty as volunteer firemen shall be paid at the regular rate of compensation for such absence.

§23.250. EMPLOYEE BENEFITS.

All employees shall be entitled to the following benefits.

1. Unemployment insurance.
2. Workmen's Compensation insurance.
3. Social Security insurance.
4. Health insurance.

§23.260. EXCEPTIONS TO THIS CHAPTER.

The provisions of this Chapter shall not apply to uniformed employees (members of the fire and police departments) to the extent that the personnel policies of those departments (Chapter 70, entitled "Fire Department" and Chapter 71, entitled "Police Department") conflict with this Chapter.

§23.270. OFFICERS ARE NOT EMPLOYEES.

Officers of the City (as defined in Section 21.100 of this Code) are not employees of the City, and are not entitled to claim privileges granted to employees under the terms of this Chapter, other than those specifically provided for elsewhere in the Municipal Code.

(Amended Ord 2013-03-004)

§23.280. EMPLOYEES ARE "AT-WILL" EMPLOYEES.

Notwithstanding the provisions of this Chapter, all employees of the city are employees at will, and subject to termination at any time by the board. of aldermen and mayor.

§23.285 BACKGROUND CHECKS

1. This ordinance is enacted pursuant to RSMo §43.535 to regulate the employment or engagement of law enforcement personnel, police officers, reserve police officers, city clerk, city treasurer, and city court clerk.
2. Any applicant, employee or volunteer seeking to provide services to the City may be required to submit a set of his/ her fingerprints taken by the City Police Department to the Elsberry City Clerk, along with appropriate fees for taking and processing those fingerprints.

3. Upon receipt of the fingerprints and the appropriate fees, the City Clerk will transmit the fingerprints either electronically or via mail to the Missouri State Highway Patrol, together with the appropriate fees (unless a satisfactory billing arrangement has been entered into between the City and Missouri State Highway Patrol). The Missouri State Highway Patrol will compare the subject's fingerprints against its criminal file and, if necessary, submit the fingerprints to the Federal Bureau of Investigation for a comparison with nationwide records. The results of the Federal Bureau of Investigation check will be returned to the Missouri State Highway Patrol, which will disseminate the state and national results to the City.
4. The City shall render a fitness determination based upon the results of the criminal background check. In rendering a fitness determination, the City will decide whether the record subject has been convicted of, or is under pending indictment for: (a) a crime which bears upon his/her ability or fitness to serve in that capacity; or (b) any felony or a misdemeanor which involved force or threat of force, controlled substances, or was a sex-related offense.
5. A record subject may request and receive a copy of his/her criminal history record information from the City. Should the record subject seek to amend or correct his/her record, he/she must contact the Missouri State Highway Patrol for a Missouri state record or the Federal Bureau of Investigation for records from other jurisdictions maintained in its file.
6. All criminal record check information shall be confidential and any person who discloses the information beyond the scope of the purposes allowed in this Ordinance is guilty of a class A misdemeanor.

(Ord. 8-4-2009)

CHAPTER 24 -- BOARD OF ALDERMEN

§24.010. REGULAR MEETINGS.

The board of aldermen of this city shall meet in regular session in the council room of the City Hall at the hour of 6:30 p.m. on the second Tuesday of each month.

1. When any such meeting day is a holiday, the regular meeting shall be held at such time as may be provided by the board on motion at the previous meeting. '
2. The board may, by motion, dispense with any regular meeting, but at least one meeting, regular or special, must be held in each calendar month.

(Amended Ord. 09-2010-001; 2011-09-00_).

2. Application for special use permit may be made by any person, or his/her agent, who owns the land sought to be subject to the special use permit, or who is purchasing said land under written contract with the owner. If such application is made by the owner's agent, said agent shall enter upon the application the name and current mailing address of the owner. Such application shall be made in letter form describing the special use permit requested, along with map exhibits identifying the property, to the City Clerk.
3. A fee of one hundred seventy-five dollars (\$175.00) shall accompany each application and, in addition to the filing fee, the applicant shall pay the cost of publication, if any.

All such applications shall be set down for hearing before the Planning and Zoning Commission not later than the second (2nd) regularly scheduled meeting of the Planning and Zoning Commission from the date of filing the same. Any such hearing, for good cause, at the request of the applicant or in the discretion of the Planning and Zoning Commission, may be continued. At least five (5) and not more than fifteen (15) days' notice of the time and place of such hearing shall be published in a newspaper of general circulation within the City. In addition, the Building Official shall post notice of said

hearing and the reasons therefor by placing a notice or sign (1) on the subject land; and (2) on public bulletin boards at City Hall and/or the post office.

5. In the event an applicant and/or his/her representative fails to appear before the Planning and Zoning Commission or the Board of Aldermen for hearings as provided in this Section at the time advertised for said hearing, said request will be stricken from the agenda. Before the Board of Aldermen or the Planning and Zoning Commission shall further hear the application, the applicant shall be required to pay an additional fee to the City in the amount of twenty-five dollars (\$25.00), plus the cost of publication. Upon payment, the request shall be republished as prescribed in this Section for a new public hearing time and place. In the event that the applicant does not pay the additional fee within sixty (60) days from the date of the previous scheduled hearing, such request shall be considered as rejected and no further hearings may be had thereon without re-application as a new request.
6. The Planning and Zoning Commission shall not recommend approval of any request for special use permit unless it shall in each case make specific written findings of fact based directly upon the particular evidence presented to it supporting the conclusion that the special use:
 - a. Complies with all applicable provisions of the City Zoning Ordinances (other than the need for a special use permit);
 - b. At the specific location will contribute to, and promote, the community welfare or convenience;
 - c. Will not cause substantial injury to the value of the neighboring property;
 - d. Complies with the overall comprehensive plan and the intent of the existing zoning district provisions;
 - e. Will provide, if applicable, off-street parking and loading areas;
 - f. Will not substantially increase traffic hazards;

 - I. Will not overtax public utilities; and
 - j. Will not constitute a nuisance.

7. In determining whether the evidence presented supports the conclusions, the Planning and Zoning Commission shall consider the extent to which the evidence demonstrates the following:
 - a. The proposed use or amendment complies with the standards of the Zoning Ordinances, if any, in regard to:
 - (1) Yard and setback;
 - (2) Parking and loading areas;
 - (3) Screening and buffering.
 - b. The impact of the projected vehicular ingress and egress of the use is determined with regard to the surrounding traffic flow, pedestrian safety and accessibility of fire-fighting equipment.
 - c. The proposed use is compatible with the surrounding area and its impact upon community facilities and services.
8. In recommending approval of such special use permit, the Planning and Zoning Commission may recommend such conditions and restrictions which are in conformity with these regulations and may be necessary to assure that the general intent of these regulations is carried out.
9. Upon completion of the hearing of such application, the Planning and Zoning Commission shall deliver a report of such action, together with a recommendation by the Planning and Zoning Commission for approval or denial of the special use permit, to the Board of Aldermen.
10. Upon receipt of a report and recommendation by the Planning and Zoning Commission, the Board of Aldermen shall schedule a public hearing, following the same notice procedures provided for the Planning and Zoning Commission in Subsection 41.250(4) and (5) above. The Board of Aldermen may, by majority vote, approve the special use permit, deny the special use permit, or approve the special use permit with conditions. In taking action on a special use permit application, the Board of Aldermen shall make findings and shall be governed by the same standards as those described in 41.250(6) and (7) above for the Planning and Zoning Commission.
11. The failure to comply with any conditions to a special use permit constitutes a violation of the Zoning Ordinances punishable as provided in Section 41.900; and further constitutes grounds for revocation of the special use permit by the Board of Aldermen, following a hearing by the Board of Aldermen conducted according to the same procedure and with the same notice as public hearings before the Board of Aldermen upon application for issuance of a special use permit.

12. No special use permit granted by the Board of Aldermen shall be valid for more than one hundred eighty (180) days, unless within such period a building permit is obtained and the erection or alteration of the structure is commenced or, where no building permit is necessary, the amendment or use is otherwise utilized by the entity originally requesting it.

§44.570 VIOLATION -- PENALTIES

- 1. Any person who shall violate a provision of this Ordinance, or shall fail to comply with any notice or order of the Building Inspector or Building Official provided for in this Ordinance, shall be guilty of a misdemeanor, punishable by a fine of up to Five Hundred Dollars (\$500) for each violation. Each day that a violation continues without abatement is a separate violation.

- 2. The violator must also pay restitution to the City for any inspections, abatement notices, or abatement work performed at the cited address.

- 3. *Violations After Written Notice To Abate.* If the violation occurs after the defendant has received a written notice of abatement, and the violation is not abated within the times stated in the notice, then the violation shall punishable by a fine of not less than \$200.00 for a first offense period at a single address, not less than \$350.00 for a second offense period at a single address, and not less than \$500.00 for any subsequent offense period at a single address. Each day that a violation continues without abatement is a separate violation. However, for purposes of determining the level of the fine based on the number of “offenses periods”(i.e., \$200, \$350, or \$500), the same violation at the same address that continues on consecutive days until abatement is considered as one “offense period”. For example, if an abatement letter is received and tall weeds continue at the same address for five consecutive days after the abatement period expires, there are five separate violations that occurred during a single offense period. Thus, the fines for each of the five

violations must be at least \$40 each in order to assess a minimum fine of \$200 for the entire offense period. (5 X \$40 = \$200). If the same owner repeats this same conduct the next month after receiving a second abatement letter, the fine for that second offense period must be a combined minimum of \$350. Thus, each of the five violations that occurred in the second offense period would have to have a minimum fine of \$70 to reach the \$350 minimum (5 X \$70 = \$350). A higher fine may be imposed if the circumstances warrant it.

(Ord 12-02-2009).

§44.575 NUISANCE, INJUNCTION

(Ord 12-02-2009)

The extension shall be requested in writing and justifiable cause demonstrated.
4. The City Code Enforcement Officer is authorized to suspend or revoke a permit issued under the provisions of this Code wherever the permit is issued in error; or on the basis of incorrect, inaccurate, or incomplete information; or in violation of any ordinance or regulation, or any of the provisions of this Code.
5. The demolition permit or copy shall be kept on the site of the work until the completion of the project.

CHAPTER 45 – FLOODPLAIN MANAGEMENT ORDINANCE

ARTICLE 1 STATUTORY AUTHORIZATION, FINDINGS OF FACT, AND PURPOSES

§45.010. STATUTORY AUTHORIZATION.

The legislature of the State of Missouri has in Chapter 89, RSMO. delegated the responsibility to local governmental units to adopt floodplain management regulations designed to protect health, safety, and general welfare. Therefore, the Board of Aldermen of Elsberry, Missouri ordains as follows:

(amended 9-2-98)

§45.020. FINDINGS OF FACT

1. Flood Losses Resulting from Periodic Inundation.

The flood special hazard areas of Elsberry, Missouri are subject to periodic inundation which results in loss of life and property, health and safety hazards, disruption of commerce and governmental services, extraordinary public expenditures for flood protection and relief, and impairment of the tax base; all of which adversely affect the public health, safety and general welfare.

2. General Causes of the Flood Losses.

These flood losses are caused by (1) the cumulative effect of development in any delineated floodplain causing increases in flood heights and velocities; and (2) the occupancy in flood hazard areas by uses vulnerable to floods, hazardous to others, inadequately elevated or otherwise unprotected from flood damages.

3. Methods Used to Analyze Flood Hazards.

The Federal Insurance Administrator's Flood Insurance Study (FIS) associated with the September 29, 2010 Flood Insurance Rate Map identified in §45.100, which is adopted as the basis of this ordinance, uses a standard engineering method of analyzing flood hazards which consist of a series of interrelated steps.

- a. Selection of a base flood that is based upon engineering calculations which permit a consideration of such flood factors as its expected frequency of occurrence, the area inundated, and the depth of inundation. The base flood selected for this ordinance is representative of large floods which are characteristic of what can be

expected to occur on the particular streams subject to this ordinance. It is in the general order of a flood which could be expected to have a one percent change of occurrence in anyone year as delineated on the Federal Insurance Administrator's FIS, and illustrative materials dated September 29, 2010, as amended, and any future revisions thereto.

- b. Calculation of water surface profiles are based on a standard hydraulic engineering analysis of the capacity of the stream channel and overbank areas to convey the regulatory flood.
- c. Computation of a floodway required to convey this flood without increasing flood heights more than one (1) foot at any point.
- d. Delineation of floodway encroachment lines which within no development is permitted that would cause any increase in flood height.
- e. Delineation of flood fringe, i.e., that area outside the floodway encroachment lines, but still subject to inundation by the base flood.

(amended 9-2-98; 06-2010-001)

§45.030. STATEMENT OF PURPOSE

It is the purpose of this ordinance to promote the public health, safety and general welfare; to minimize those losses described in Article 1, Section B(1) [§45.020(1)]; to establish or maintain the community's eligibility for participation in the National Flood Insurance Program (NFIP) as defined in 44 Code of Federal Regulations (CFR) 59.22(a)(3); and to meet the requirements of 44 CFR 60.3(d) by applying the provisions of this ordinance to:

- 1. restrict or prohibit uses that are dangerous to health, safety, or property in times of flooding or cause undue increases in flood heights or velocities;
- 2. require uses vulnerable to floods, including public facilities that serve such uses, be provided with flood protection at the time of initial construction; and
- 3. protect individuals from buying lands that are unsuited for the intended development purposes due to the flood hazard.

(amended 9-2-98)

ARTICLE 2 GENERAL PROVISIONS

§45.100. LANDS TO WHICH THIS ORDINANCE APPLIES

This ordinance shall apply to all lands within the jurisdiction of the City of Elsberry, Missouri identified as numbered and unnumbered A zones and AE zones, on the Flood Insurance Rate Map (FIRM) for Lincoln County, Missouri on map panels 29113C0110D, and 29113C0120D dated September 29, 2010 as amended, and any future revisions thereto. In all areas covered by this ordinance, no development shall be permitted except through the issuance of a floodplain development permit, granted by the Board of Aldermen or its duly designated representative under such safeguards and restrictions as the Board of Aldermen or the designated representative may reasonably impose for the promotion and maintenance of the general welfare, health of the inhabitants of the community, and as specifically noted in Article 4.

(amended 9-2-98; 06-2010-001)

(amended 9-2-98)

§45.130. ABROGATION AND GREATER RESTRICTIONS

It is not intended by this ordinance to repeal, abrogate, or impair any existing easements, covenants, or deed restrictions. However, where this ordinance imposes greater restrictions, the provisions of this ordinance shall prevail. All other ordinances inconsistent with this ordinance are hereby repealed to the extent of the inconsistency only.

(amended 9-2-98)

§45.140. INTERPRETATION

In their interpretation and application, the provisions of this ordinance shall be held to be minimum requirements, shall be liberally construed in favor of the governing body, and shall not be deemed a limitation or repeal of any other powers granted by State statutes.

(amended 9-2-98)

§45.150. WARNING AND DISCLAIMER OF LIABILITY

The degree of flood protection required by this ordinance is considered reasonable for regulatory purposes and is based on engineering and scientific methods of study. Larger floods may occur on rare occasions or the flood heights may be increased by man-made or natural causes, such as ice jams and bridge openings restricted by debris. This ordinance does not imply that areas outside the floodway and flood fringe or land uses permitted within such areas will be free from flooding or flood damage. This ordinance shall not create a liability on the part of Elsberry, Missouri, any officer or employee thereof, for any flood damages that may result from reliance on this ordinance or any administrative decision lawfully made thereunder.

(amended 9-2-98)

7. verify and maintain a record of the actual elevation (in relation to mean sea level) of the lowest floor, including basement, of all new or substantially improved structures;
8. verify and maintain a record of the actual elevation (in relation to mean sea level) that the new or substantially improved non-residential structures have been floodproofed;
9. when floodproofing techniques are utilized for a particular non-residential structure, the Floodplain Administrator shall require certification from a registered professional engineer or architect.
10. In areas through which rivers, streams or creeks, continuously or periodically flow, or which are subject to flooding by spring freshets, fall and early winter storms and intense rainstorms, provide notice to adjacent communities, the State Coordinating Office, and the Federal Insurance Administrator of any proposed alteration or relocation of a watercourse. No permit for such areas where a water course is to be altered or relocated may be issued until the application is approved by the State Coordinating Office or waived by the Federal Insurance Administrator.

(amended 9-2-98; 06-2010-001)

ARTICLE 4 PROVISIONS FOR FLOOD HAZARD REDUCTION

§45.300. GENERAL STANDARDS

1. No permit for floodplain development shall be granted for new construction, substantial-improvements, and other improvements, including the placement of manufactured homes, within any numbered or unnumbered A zones and AE zones, unless the conditions of this section are satisfied.
2. All areas identified as unnumbered A zones on the FIRM are subject to inundation of the 100-year flood; however, the base flood elevation is not provided. Development within unnumbered A zones is subject to all provisions of this ordinance. If Flood Insurance Study data is not available, the community shall obtain, review, and reasonably utilize any

base flood elevation or floodway data currently available from Federal, State, or other sources.

3. Until a floodway is designated, no new construction, substantial improvements, or other development, including fill, shall be permitted within any numbered A zone or AE zone on the FIRM, unless it is demonstrated that the cumulative effect of the proposed development, when combined with all other existing and anticipated development, will not increase the water surface elevation of the base flood more than one foot at any point within the community.
4. For all areas subject to this Chapter under §45.100:
 - A. All new construction, subdivision proposals, substantial-improvements, prefabricated structures, placement of manufactured homes, and other developments shall be:
 1. designed or modified to provide adequate anchorage to prevent flotation, collapse, or lateral movement of the structure resulting from hydrodynamic and hydrostatic loads, including the effects of buoyancy;
 2. constructed with materials resistant to flood damage;
 3. constructed by methods and practices that minimize flood damages; and
 4. constructed with all electrical, heating, ventilation, plumbing, air-conditioning equipment, and other service facilities that are designed and/or located so as to prevent water from entering or accumulating within the components during conditions of flooding.
 - B. All new or replacement water supply systems and/or sanitary sewage systems shall be designed to minimize or eliminate infiltration of flood waters into the systems and discharges from the systems into flood waters. On-site waste disposal systems shall be located so as to avoid impairment or contamination.
 - C. All subdivision proposals and other proposed new development, including manufactured home parks or subdivisions shall:
 1. Be consistent with the need to minimize flood damage;

5. Storage, material, and equipment

a. The storage or processing of materials within the special flood hazard area that are in time of flooding buoyant, flammable, explosive, or could be injurious to human, animal, or plant life is prohibited.

b. Storage of other material or equipment may be allowed if not subject to major damage by floods, if firmly anchored to prevent flotation, or if readily removable from the area within the time available after a flood warning.

6. Accessory Structures

Structures used solely for parking and limited storage purposes, not attached to any other structure on the site, of limited investment value, and not larger than 400 square feet, may be constructed at-grade and wet-floodproofed provided there is no human habitation or occupancy of the structure; the structure is of single-wall design; a variance has been granted from the standard floodplain management requirements of this ordinance; and a floodplain development permit has been issued.

(amended 9-2-98; 06-2010-001)

§45.310. SPECIFIC STANDARDS

1. In all areas identified as numbered and unnumbered A zones and AE zones, where base flood elevation data have been provided, as set forth in Article 4, Section A(2) [§45.300(2)], the following provisions are required:

New construction or substantial-improvement of any residential structures, including manufactured homes, shall have the lowest floor, including basement, elevated to or one foot above base flood elevation.

b. Non-Residential Construction

New construction or substantial-improvement of any commercial, industrial, or other non-residential structures, including manufactured homes, shall have the lowest floor, including basement, elevated to or one foot above the base flood elevation or, together with attendant utility and sanitary facilities, be floodproofed so that below the base flood elevation the structure is watertight with walls substantially impermeable to the passage of water and with structural components

having the capability of resisting hydrostatic and hydrodynamic loads and effects of buoyancy. A registered professional engineer or architect shall certify that the standards of this subsection are satisfied. Such certification shall be provided to the Floodplain Administrator as set forth in Article 3, Section C (9) [§45.220(a)].

- c. Require, for all new construction and substantial-improvements, that fully enclosed areas below lowest floor used solely for parking of vehicles, building access, or storage in an area other than a basement and that are subject to flooding shall be designed to automatically equalize hydrostatic flood forces on exterior walls by allowing for the entry and exit of floodwaters. Designs for meeting this requirement must either be certified by a registered professional engineer or architect or meet or exceed the following minimum criteria:
 - (1) A minimum of two openings have a total net area of not less than one square inch for every square foot of enclosed area subject to flooding shall be provided; and
 - (2) the bottom of all opening shall be no higher than one foot above grade. Openings may be equipped with screens, louvers, valves, or other coverings or devices provided that they permit the automatic entry and exit of floodwaters.

§45.320. MANUFACTURED HOMES

1. All manufactured homes to be placed within all unnumbered and numbered A zones and AE zones, on the community's FIRM shall be required to be installed using methods and practices that minimize flood damage. For the purposes of this requirement, manufactured homes must be elevated and anchored to resist flotation, collapse, or lateral movement. Methods of anchoring may include, but are not limited to, use of over-the-top or frame ties to ground anchors. The manufactured home must also meet all other requirement of State law and the City Code, including tie down requirements for resisting wind forces.
2. All manufactured homes that are placed or substantially improved within unnumbered or numbered A zones and AE zones, on the community's FIRM on sites that are outside of manufactured home park or subdivision; in a new manufactured home park or subdivision; in an expansion to and existing manufactured home park or subdivisions; or in an existing manufactured home park or subdivision on which a manufactured home has incurred substantial-damage as the result of a flood, shall be:
 - a. elevated on a permanent foundation such that the lowest floor of the manufactured home is elevated to or one foot above the base flood elevation;
 - b. be securely attached to an adequately anchored foundation system to resist flotation, collapse, and lateral movement; and

- c. meet all other requirement of State law and the City Code, including tie down requirements for resisting wind forces..
3. All manufactured homes to be placed or substantially improved on sites in an existing manufactured home park or subdivision within all unnumbered and numbered A zones and AE zones, on the community's FIRM, that are not subject to the provisions of subsection 2 above, shall be elevated so that either:
 - a. the lowest floor of the manufacture home is at or one foot above the base flood level; or
 - b. that manufactured home chassis is supported by reinforced piers or other foundation elements of at least equivalent strength that are no less than thirty-six (36) inches in height above grade and be securely attached to an adequately anchored foundation system to resist flotation, collapse, and lateral movement.

The manufactured home must also meet all other requirement of State law and the City Code, including tie down requirements for resisting wind forces.

§45.330. FLOODWAY

Located within areas of special flood hazard established in Article 2, Section A [§45.100] are areas designated as floodways. Since the floodway is an extremely hazardous area due to the velocity of flood waters that carry debris and potential projectiles, the following provisions shall apply:

1. The community shall select and adopt a regulatory floodway based on the principle that the area chosen for the regulatory floodway must be designed to carry the waters of the base flood without increasing the water surface elevation of that flood more than one foot at any point.
2. The community shall prohibit any encroachments, including fill, new construction, substantial-improvements, and other development within the adopted regulatory floodway unless it has been demonstrated through hydrologic and hydraulic analyses performed in accordance with standard engineering practice that the proposed encroachment would not result in any increase in flood levels within the community during the occurrence of the base flood discharge.
3. If Article 4, Section D(2) [§45.330(2)] is satisfied, all new construction and substantial-improvements shall comply with all applicable flood hazard reduction provisions of Article 4.

4. In unnumbered A zones, the community shall obtain, review, and reasonably utilize any base flood elevation or floodway data currently available from Federal, State, or other sources as set forth in Article 4, Section A(2) [§45.300(2)].

(amended 9-2-98)

§45.340. RECREATIONAL VEHICLES

1. Require that recreational vehicles placed on sites within all unnumbered and numbered A zones and AE zones on the community's FIRM either:
 - a. be on the site for fewer than 180 consecutive days, and be fully licensed and ready for highway use*; or
 - b. meet the permitting, elevating, and the anchoring requirements for manufactured homes of this ordinance.

* A recreational vehicle is ready for highway use if it is on its wheels or jacking system, is attached to the site only by quick-disconnect type utilities and security devices, and has no permanently attached additions.

ARTICLE 5 FLOODPLAIN MANAGEMENT VARIANCE PROCEDURES

§45.400. ESTABLISHMENT OF APPEAL BOARD

The Board of Adjustment as established by Elsberry, Missouri, shall hear and decide appeals and requests for variances from the floodplain management requirements of this ordinance.

(amended 9-2-98)

§45.410. RESPONSIBILITY OF APPEAL BOARD

Where an application for a floodplain development permit or request for a variance from the floodplain management regulations is denied by the Floodplain Administrator, the applicant may apply for such floodplain development permit or variance directly to the Appeal Board, as defined in Article 5, Section A.

The Board of Adjustment shall hear and decide appeals when it is alleged that there is an error in any requirement, decision, or determination made by the Floodplain Administrator in the enforcement or administration of this ordinance.

(amended 9-2-98)

§45.420. FURTHER APPEALS

Any person aggrieved by the decision of the Board of Adjustment or any taxpayer may appeal such decision to the Board of Aldermen.

(amended 9-2-98)

§45.430. FLOODPLAIN MANAGEMENT VARIANCE CRITERIA

In passing upon such applications for variances, the Board of Adjustment shall consider all technical data and evaluations, all relevant factors, standards specified in other sections of this ordinance, and the following criteria:

1. the danger to life and property due to flood damage;
2. the danger that materials may be swept onto other lands to the injury of others;
3. the susceptibility of the proposed facility and its contents to flood damage and the effect of such damage on the individual owner;
4. the importance of the services provided by the proposed facility to the community;
5. the necessity to the facility of a waterfront location, where applicable;
6. the availability of alternative locations, not subject to flood damage, for the proposed use;
7. the compatibility of the proposed use with existing and anticipated development;
8. the relationship of the proposed use to the comprehensive plan and floodplain management program for that area;
9. the safety of access to the property in times of flood for ordinary and emergency vehicles;
10. the expected heights, velocity, duration, rate of rise and sediment transport of the flood waters, if applicable, expected at the site; and,
11. the costs of providing governmental services during and after flood conditions, including maintenance and repair of public utilities and facilities such as sewer, gas, electrical, and water systems; streets; and bridges.

(amended 9-2-98)

§45.440. CONDITIONS FOR APPROVING FLOODPLAIN MANAGEMENT VARIANCES

1. Generally, variances may be issued for new construction and substantial-improvements to be erected on a lot of one-half acre or less in size contiguous to and surrounded by lots with existing structures constructed below the base flood level, providing items 2 through 6 below have been fully considered. As the lot size increases beyond one-half acre, the technical justification required for issuing the variance increases.
2. Variances may be issued for the reconstruction, rehabilitation, or restoration of structures listed on the National Register of Historic Places, the State Inventory of Historic Places, or local inventory of historic places upon determination provided the proposed activity will not preclude the structure's continued historic designation.
3. Variances shall not be issued within any designated floodway if any increase in flood levels during the base flood discharge would result.
4. Variances shall only be issued upon a determination that the variance is the minimum necessary, considering the flood hazard, to afford relief.
5. Variances shall only be issued upon (a) a showing of good and sufficient cause, (b) a determination that failure to grant the variance would result in exceptional hardship to the applicant, and (c) a determination that the granting of a variance will not result in increased flood heights, additional threats to public safety, extraordinary public expense, create nuisances, cause fraud on or victimization of the public, or conflict with existing local laws or ordinances.
6. A community shall notify the applicant in writing over the signature of a community official that (1) the issuance of a variance to construct a structure below base flood level will result in increased premium rates for flood insurance up to amounts as high as \$25.00 for \$100.00 of insurance coverage and (2) such construction below the base flood level increases risks to life and property. Such notification shall be maintained with the record of all variance actions as required by this ordinance.

(amended 9-2-98)

§45.450. CONDITIONS FOR APPROVING VARIANCES FOR ACCESSORY STRUCTURES

Any variance granted for an accessory structure shall be decided individually based on a case by case analysis of the building's unique circumstances. Variances granted shall meet the following conditions as well as those criteria and conditions set forth in Article 5, Sections D and E of this ordinance.

In order to minimize flood damages during the 100-year flood and the threat to public health and safety, the following conditions shall be included for any variance issued for accessory structures that are constructed at-grade and wet-floodproofed.

1. Use of the accessory structures must be solely for parking and limited storage purposes in zone A only as identified on the community's Flood Insurance Rate Map (FIRM).
2. For any new or substantially damaged accessory structures, the exterior and interior building components and elements (i.e., foundation, wall framing, exterior and interior finishes, flooring, etc.) below the base flood elevation, must be built with flood-resistant materials in accordance with Article 4, Section A(4)(b) [§45.300(4)(b)] of this ordinance.
3. The accessory structures must be adequately anchored to prevent flotation, collapse, or lateral movement of the structure in accordance with Article 4, Section A(4)(a) [§45.300(4)(a)] of this ordinance. All of the building's structural components must be capable of resisting specific flood-related forces including hydrostatic, buoyancy, and hydrodynamic and debris impact forces.
4. Any mechanical, electrical, or other utility equipment must be located above the base flood elevation or floodproofed so that they are contained within a watertight, floodproofed enclosure that is capable of resisting damage during flood conditions in accordance with Article 4, Section A(4)(d) [§45.300(4)(d)] of this ordinance.
5. The accessory structures must meet all National Flood Insurance Program (NFIP) opening requirements. The NFIP requires that enclosure or foundation walls, subject to the 100-year flood, contain openings that will permit the automatic entry and exit of floodwaters in accordance with Article 4, Section B(1)(c) [§45.310(1)(c)] of this ordinance.
6. The accessory structures must comply with the floodplain management floodway encroachment provisions of Article 4, Section D(2) [§45.330(2)] of this ordinance. No variances may be issued for accessory structures within any designated floodway, if any increase in flood levels would result during the 100-year flood.
7. Equipment, machinery, or other contents must be protected from any flood damage.
8. No disaster relief assistance under any program administered by any Federal agency shall be paid for any repair or restoration costs of the accessory structures.
9. A community shall notify the applicant in writing over the signature of a community official that (1) the issuance of a variance to construct a structure below base flood level will result in increased premium rates for flood insurance up to amounts as high as \$25.00 for \$100.00 of insurance coverage and (2) such construction below the base flood level increases risks to life and property. Such notification shall be maintained with the record of all variance actions as required by this ordinance.
10. Wet-floodproofing construction techniques must be reviewed and approved by the community and registered professional engineer or architect prior to the issuance of any floodplain development permit for construction.

(amended 9-2-98)

ARTICLE 6 PENALTIES FOR VIOLATION

§45.500 PENALTIES

Violation of the provisions of this ordinance or failure to comply with any of its requirements (including violations of conditions and safeguards established in connection with granting of variances) shall constitute a misdemeanor. Any person who violates this ordinance or fails to comply with any of its requirements shall, upon conviction thereof, be fined not more than \$500.00, and in addition, shall pay all costs and expenses involved in the case. Each day such violation continues shall be considered a separate offense. Nothing herein contained shall prevent the Flood Administrator or other appropriate authority from taking such other lawful action as is necessary to prevent or remedy any violation.

(amended 9-2-98)

ARTICLE 7 AMENDMENTS

§45.600. AMENDMENTS

The regulations, restrictions, and boundaries set forth in this ordinance may from time to time be amended, supplemented, changed, or appealed to reflect any and all changes in the National Flood Disaster Protection Act of 1973, provided, however, that no such action may be taken until after a public hearing in relation thereto, at which parties of interest and citizens shall have an opportunity to be heard. Notice of the time and place of such hearing shall be published in a newspaper of general circulation in the City of Elsberry, Missouri. At least 20 days shall elapse between the date of this publication and the public hearing. A copy of such amendments will be provided to the Region VII office of the Federal Emergency Management Agency (FEMA). The regulations of this ordinance are in compliance with the National Flood Insurance Program (NFIP) regulations.

"Functionally Dependent Use" means a use that cannot perform its intended purpose unless it is located or carried out in close proximity to water. This term includes only docking facilities and facilities that are necessary for the loading and unloading of cargo or passengers, but does not include long-term storage or related manufacturing facilities.

"Lowest Floor" means the lowest floor of the lowest enclosed area, including basement. An unfinished or flood-resistant enclosure, usable solely for parking of vehicles, building access, or storage, in an area other than a basement area, is not considered a building's lowest floor, provided

that such enclosure is not built so as to render the structure in violation of the applicable floodproofing design requirements of this ordinance.

The actual start means either the first placement of permanent construction of a structure on a site, such as the pouring of slabs or footings, the installation of piles, the construction of columns, any work beyond the stage of excavation, or the placement of a manufactured home on a foundation. Permanent construction does not include land preparation, such as clearing, grading and filling, the installation of streets and/or walkways, excavation for a basement, footings, piers, foundations, the erection of temporary forms, nor installation on the property of accessory structures, such as garages or sheds not occupied as dwelling units or not part of the main structure. For a substantial-improvement, the actual start of construction means the first alteration of any wall, ceiling, floor, or other structural part of a building, whether or not that alteration affects the external dimensions of the building.

"Substantial-Improvement" means any reconstruction, rehabilitation, addition, or other improvement of a structure, the cost of which equals or exceeds 50 percent of the market value of the structure before "*start of construction*" of the improvement. This term includes structures which have incurred "*substantial damage*," regardless of the actual repair work performed. The term does not, however, include either (1) any project for improvement of a structure to correct existing violations of state or local health, sanitary, or safety code specifications that have been identified by the local code enforcement official and which are the minimum necessary to assure safe living conditions, or (2) any alteration of a "*historic structure*," provided that the alteration will not preclude the structure's continued designation as a "*historic structure*."

3. No person in the Grantee's service area shall be arbitrarily refused service; but in recognition of the capital costs involved in unusual circumstances, including, without limitation, instances when the distance from distribution cable to connection of service to subscribers is more than 200 cable feet or when a subscriber density exists less than the density specified hereinabove, service may be made available on the basis of costs of materials, labor and easements, in order to prevent inequitable burdens on cable subscribers in more densely populated areas.
4. Grantee shall complete the CATV system construction on or before June 30, 1983. Such completion shall be subject to the conditions set forth in Section 86.090(2) of this Chapter.

Or, if a house with one Existing Connection is converted into a duplex, the house has one Existing Connection and will need one New Connection. Or, if the space in a commercial building with a single Existing Connection is divided into rental space for three businesses, then there is one Existing Connection and two new connections will be required.

“Lateral” means the entire length of pipe(s) and fittings connecting the Unit’s water and sewer service to the City utility service main water or sewer line (as the case may be).

“May” is permissive.

“Multiple Residence Structure” means a single building, structure, or mobile home park containing Residential Multi-Units.

"Unit" means each separate lot, building, condominium unit, pad, bay, structure, suite, room, or other defined space that is used, designed, or intended to be occupied by only a single family, single separate enterprise, or a single separate business; whether or not the lot, building, structure, or space is owned together with others or by one owner. For example, a strip mall with four bays for four businesses contains four Units – even though it may be owned by a single owner and some of the bays are not yet rented. A mobile home park with ten pads has ten Units, whether or not there are mobile homes on each pad. A condominium building with ten condominiums and one common facility has eleven units. An apartment building with twelve apartments has twelve units even if some are not rented. A lot containing a single family detached house with a work shed and garage all occupied and used by a single family for non-business purposes, is collectively a single Unit. If a structure or facility would be considered to be one Unit, but contains multiple

Should the test show the meter is correct within the 2% margin of error, the cost of the excess amount of services shall not be adjusted, and the inspection fee shall be retained by the City. 110.360 CALCULATION OF WATER RATES

1. A method to calculate a minimum water User Charge rate is attached as Appendix "A," Appendix "B," and Appendix "C."
2. The City shall review the User Charge system annually and revise City water User Charge rates as necessary to ensure that the water system generates adequate revenues to pay the costs of operation and maintenance, repair, including replacement, and that the system continues to provide for the proportional distribution of operation and maintenance, including replacement costs, among users and user classes.
3. The City will notify each User at least annually, in conjunction with a regular bill, of the User rate being charged for operation, maintenance, repair, including replacement, of the water system.

(Ord. 4-1-2007)

110.370. APPLICABILITY OF WATER RATES

The User Charges set out in 110.350 shall take effect and be applied from and after their date of adoption, and shall remain in effect until amended or repealed by the Board of Aldermen.

APPENDIX "A" TO USER CHARGE ORDINANCE
(Actual Use Rate Structure)

This appendix presents the methodology to be used in calculating the user charge rate, and illustrates the calculations followed in arriving at the first year's user charges. The unit costs established in this appendix are based on estimates of expenses. The actual expenses that occur may differ from these estimates and certainly they will change as time passes. Therefore, the unit costs must be reestablished whenever necessary to reflect actual expenses. Once the system is in use, the expenses can be determined from operating records and the unit costs can be adjusted based on these figures.

1. Expenses: The total annual expenses associated with the water system, as defined in Article II, Section 7, are estimated as follows:

<u>Item</u>	<u>Annual Expense</u>
Billing and Collection Salaries Taxes/etc.	<u>\$12,552</u>
Insurance	<u>12,930</u>
Water Billing Supplies & Postage	<u>5,522</u>
Power (included in Alliance Water's fees)	<u>0</u>
Meters, Fittings	<u>4,153</u>
Supplies	<u>7,173</u>
Replacement Costs (see Appendix B)	<u>21,097</u>
Debt Service (36050 new, 5960 existing)	<u>42,010</u>
Permits, Training	<u>972</u>
Misc./Reserve Expense	<u>6,580</u>

Alliance Water Resources	<u>187,507</u>
TOTAL	<u>\$300,496</u>

2. Allocation of Expenses: The total operation and maintenance, including replacement expenses, is allocated in the following manner.

$$\begin{aligned}
 \text{Total annual metered water} &= 100\% \text{ annual cost allocated to produce water (total annual} \\
 &\text{O\&M budget minus billing, collection, administration, and} \\
 &\text{debt)} \\
 &= 100\% (\$300,496 - 42,010 - 31,004) = \$ 227,482
 \end{aligned}$$

(NOTE: The billing, collection, administration, and debt expenses are deducted from the total O&M budget at this point because each user will pay the same for these expenses per billing period. See paragraph 5 below. In some situations other appropriate expenses may be handled in the same manner.)

3. Annual Water:

The initial water metered leaving the plant is estimated to be 70,189,000 gal/year.

Total metered water to customers is 50,542,171 gal/ year.

Number of users is 839.

4. Unit costs:

Initial unit cost in \$/gallon = \$ 227,482 annual \$ to produce water / 50,542,171 metered gallons

$$\begin{aligned}
 \$/\text{gallon} &= \$0.0045/\text{gallon} \\
 \$0.0045 \times 100 &= \$0.45/100 \text{ gallons} \\
 \$0.0045 \times 1000 &= \$4.50/1000 \text{ gallons}
 \end{aligned}$$

This total user unit charge is to be inserted in Article IV, Section 3, of the ordinance.

5. Minimum Charge:

Billing and Collection Salaries	=	<u>\$12,552</u>
Taxes/etc.		
Insurance	=	<u>12,930</u>

Water Billing Supplies & Postage	=	<u>5.522</u>
Annual debt service	=	<u>42,010</u>
Total Annual Minimum Cost	=	<u>\$73,014</u>
Minimum Charge/User/Billing Period	=	<u>\$ 7.25</u>

To calculate the minimum charge/user/billing period, divide annual minimum cost by number of users, then divide by number of billing periods (twelve in a year).

$$\$73,014 / 839 = \$87.03 \quad \text{then} \quad \$87.03/12 = 7.25$$

The minimum charge/user billing period is to be inserted in Article N, Section 3, of the ordinance.

(NOTE: The above procedure allocates the cost of distributing and treating exfiltration to metered water volume. Other acceptable means of distributing this cost include allocating to the number of users.)

6. Residential User Charge: The residential user charge is calculated as follows:

The unit charge (determined in 4 above) x monthly metered volume, plus the minimum charge/user/month from # 5 above.

An example calculation of a residential user charge for a resident of the City of follows:
Assume a monthly water usage of 5,000 gallons

$$\$ 7.25 + [(5,000/1,000) \times \$ 4.50] = \$ 29.75 \text{ per month}$$

(Ord. 8-2-02)

APPENDIX B TO USER CHARGE ORDINANCE

This appendix contains a replacement schedule that was developed to determine the amount of revenue needed to fund the Replacement Account. The replacement schedule lists the equipment in the water system, the estimated dates when the equipment will have to be replaced, and the estimated cost of replacement (including an allowance for inflation) over the useful life of the water system. The replacement dates and costs shown are estimates; the actual replacement dates and costs could be significantly different from those shown. If the actual replacement expenses differ significantly from those listed in the replacement schedule, the funding of the Replacement Account shall be adjusted accordingly.

CHAPTER 112 -- WATER

§112.010. SERVICE INSTALLATIONS TO BE MADE BY WATER DEPARTMENT ONLY; RESPONSIBILITY FOR MAINTENANCE.

No water shall be furnished except through a service installed by the water department of the City. Such service installation shall include excavation, tapping the main, service line to the meter installation, but not beyond the property line, meter tile cover, five-eighths (5/8) inch through three-fourths (3/4) inch meter and meter connecting fittings and backfilling the installation. The cost of tapping the main shall be as provided for in Section 110.060, Chapter 110, Title XI of this Code, and the cost and procedures for excavation shall be as provided for in Chapter 93, Title IX of this Code, and shall be such fees and not a transaction in which the materials are purchased. The ownership of such service line and other appurtenances installed by the water department of the City shall remain with the water system of the City. The responsibility for maintenance and repairs to service lines installed as above will be that of the water department. The maintenance for any meter which is over five-eighths (5/8) inch through three-fourths (3/4) inch in size shall remain the responsibility of the property owner. If the service line is replaced by the water department and if the owner executes an assignment of such service line to the water department, then such service line shall be the property of the water department and shall be maintained by such department.

(Ord. 3-1-1990)

§112.030. STANDARDS USED IN TAPPING A MAIN.

In tapping, a main stopcock shall be inserted at the top and shall be known as the corporation cock, and to it will lay at a depth of three (3) feet or more below the surface of the ground. The service pipe to the meter and such service pipe shall conform to AWhA standards.

§112.040. CONTROL OF FLOW.

A suitable brass stopcock with round waterway must be placed in the service pipe, so that the T head will stand parallel with the curb when the water is off, to allow the City to control the flow of water through any such pipe, located inside the curbstone and as near thereto as practicable; with iron stop box of such pattern as may be approved by the Mayor. Should it become necessary to dig the box out for the purpose of turning the water on or off, it shall be at the expense of the water taker. No person other than the Mayor or one duly authorized by him shall turn on the water at any stopcock or meter or in any other manner take water from the water mains.

§112.050. USE OF SERVICE PIPES AND TAPS.

Along streets where water mains are laid, service pipes shall not be allowed to run across lots, that is, from one lot to another, but must be taken from the mains in front of the premises or Some point in the street adjacent to the same, except by special permit of the Mayor; provided, that one service pipe may be used to supply all the parties taking water within sixty (60) feet on either side of such service pipe, in which case such branch service must have a curb stop and box. No more than one house shall be supplied from one tap except by special permit of the Mayor.

§112.060. USE OF CORPORATION COCKS.

No corporation cock shall be inserted for any premises where one has been previously inserted for water conveyed, for the purpose of giving an increased supply, except in pursuance of a new application and permit. Nor shall any attachment be made to any premises previously supplied with water, until the corporation cock previously used shall be drawn and the opening securely stopped with a brass plug, at the expense of the owners of the premises. Nor shall any two (2) corporation cocks be inserted into any street main within less than ten (10) inches of one another.

§112.070. POSITIONING OF SOURCE AND USE.

No cross connection or connection between any pipe carrying water from the waterworks of the City and water from any other source of supply shall be made and no pipe or orifice or opening of any kind shall be installed or permitted in any pipe or conductor of water from such waterworks in any tank, vessel, reservoir or container of any kind, below the water level or possible water level.

§112.080. CERTAIN CONSUMERS TO KEEP RESERVE SUPPLY.

All persons using City water for steam engines or heating or refrigerating plants shall provide suitable tanks of capacity sufficient to afford a supply for at least ten (10) hours in case the water should be shut off.

§112.090. METERS REQUIRED.

All water supplied by the waterworks shall be charged and paid for by meter measurement, and no water will be supplied without such meter. Nothing in this Chapter shall be so construed as to mean that more than one meter will be furnished or allowed for anyone building or premises. Provided, further, that where there is more than one building or dwelling on a premise (premise meaning the whole parcel under one ownership) the Board of Aldermen shall have sole discretion in deciding whether more than one meter for the whole premise shall be allowed, and if only one meter is allowed for the premise, then all water used on said premise, regardless of the number of buildings or dwellings on said premise shall be metered through said one meter and paid for at the regular rates established by ordinance.
(Ord. 5-2-1989)

§112.100. SAME--INSTALLATION IN APPROVED METER BOX; MAINTENANCE.

All water meters measuring water furnished by the waterworks of the City shall be installed in an approved meter box, provided with inside lugs or bolts by which is secured an approved cast iron meter box cover with lid that can be locked or sealed and the dial of the meter shall be not less than eight (8) inches nor more than fourteen (14) inches from the lid of the box, and the lid shall not be lower than the surface of the ground nor more than one inch above the level of the ground, shall be provided with an approved fastening that can be securely locked or sealed, and all such water meter boxes shall be installed at the expense of the owner of the building or premises in a location provided by such owner or approved by the Mayor, and to be at all times easily accessible to City employees duly authorized by the Mayor to read, inspect or repair the meter, and shall insofar as shall be found possible or practical be located as near as possible to the line dividing the street or alley from the lot or in the space between the street pavement and the sidewalk, and where such meter box is not installed in such accessible location, such meter box may be installed under the direction and supervision of the Mayor and the owner of the building, premises or lot shall be charged for the labor and material required; provided, that where water meters are now installed in buildings or basements in locations safe from frost and accessible at all times to City employees, and where at the same time no other more suitable location can be found for such meter, there may be installed around such meter by the direction and supervision of the Mayor, an approved metal box or enclosure that can be securely locked or sealed. No person other than one duly authorized by the Mayor shall open any meter box or lock or break any seal. The owner or water user shall keep safe from molestation meter boxes, locks and seals and where boxes or locks are found open or seals broken it shall be considered prima facie evidence that it has been done by the water user. Whenever water meters are furnished by the City, approved connections or yokes shall be furnished by the owner or water user.

§112.110. CONNECTION FOR BUILDING PURPOSES.

When a connection is made to supply water for building purposes the service pipe shall be carried at the expense of the party building to the inside of the curbstone line where a proper curb stop shall be placed with a pipe leading to the surface, the faucet of which shall be kept secured and locked when not in use. When the building is completed the faucet and pipe shall be taken up and the water shut off at the curb stop.

§112.120. DUTY OF PLUMBERS CONCERNING CONNECTION PERMITS.

Whenever extensions are desired or new connections are to be made in place of old ones to the City water supply, permits must be obtained in the usual manner. It shall be the duty of all plumbers to make return in writing to the office of the Mayor before the water will be turned on, of all connections made by them, giving a description of the premises, location of the corporation

cock, length of service pipe, number of feet from the northerly or easterly line of the lot or premises to the place where the tap in the main is located, together with the names of the occupants and the owner of the premises, and it shall be the duty of all plumbers to produce a special permit before making any change in connections that have been made with the water mains.

§112.130. TURN ON REQUIRES ORDER OF MAYOR.

No consumer or other person whose water service shall have been turned off for any reason shall turn on the water or reopen the service, or permit the same to be done by any person, except by order of the Mayor.

§112.140. SPECIAL PERMIT REQUIRED FOR USE OF PUBLIC HYDRANTS, HOSES, PIPES, ETC.

No person shall take water for private use from any public hydrant, plug, draw cock, hose, pipe or fountain furnished for fire purposes or other public use, without the consent of the Mayor, and a special permit therefor having been paid for and received therefor. The Mayor shall determine the charge for said permit, which shall be his estimate as to the cost of any water used and extraordinary expenses incurred by the City in providing supervisory personnel or other extraordinary service.

§112.150. INTERFERENCE WITH WATERWORKS PROHIBITED.

No person shall hitch any horse or mule to any fire hydrant, or open fire hydrant, or remove or obstruct the stopcock cover of any fire hydrant, or paint, mark or deface any fire hydrant or any public or private stopcock, or place or deposit any dirt or other material in any such stop cock boxes or in any meter box, or turn any public or private stopcock, or commit any act tending to obstruct the use thereof, or in any manner tamper with or injure any building, meter box, valve box, valve, engine, motor, pump or other machinery, pipe, hose, tools, fixtures or apparatus of the waterworks.

§112.160. CONTAMINATION PROHIBITED.

No person shall bathe or fish in any reservoir belonging to the waterworks of the City or place anything whatever in any reservoir, well, aerator, filter or any opening of any kind in any pipe or hydrant belonging to the waterworks of the City or perform any other act which might contaminate the water.

The type and degree of protection required shall be commensurate with the degree of hazard. Each water customer required by the City or the Missouri Department of Natural Resources shall follow the rules, regulations and requirements set forth in this Section and all other regulations that may be adopted from time to time by the United States Environmental Protection Agency, the Missouri Department of Natural Resources or by the City of Elsberry, Missouri.
2. Cross connections are prohibited and no water service connection shall be installed or maintained to any premises where actual or potential cross connections to the City's potable or customers' water system may exist unless such actual or potential cross connection(s) are abated or controlled to the satisfaction of the City and as required by the laws and regulations of the Missouri Department of Natural Resources.
3. No water service connection shall be installed or maintained whereby an auxiliary water supply may enter the City's potable or customers' water system unless the connection of such an auxiliary water supply and the method of connection and the use of such a supply shall have been approved by the City and the Missouri Department of Natural Resources.
4. No water service connection shall be installed or maintained to any premises in which the plumbing systems, facilities, point of use devices and water fixtures have not been constructed or installed using acceptable plumbing practices considered by the City necessary for the protection of the City water supply and for the protection of the health and safety of the City's customers or users.
5. On request by the City or its authorized representative(s), the customer or user shall furnish information regarding water use practices within his/her premises. The customer's or user's premises shall be open at all reasonable times to the City or its authorized representative(s), for the conduction of surveys and investigations of water use practices within the premises to determine whether there are actual or potential cross connections to the City's water system or the customer's water system through which contaminants or pollutants could backflow into the customer's water system or the City's water system.
6. The type of backflow protection required shall depend on the degree of hazard which exists and shall be as follows:

installed where the public potable water system may be polluted with substances that could cause a pollutional hazard not dangerous to health.

7. An approved air-gap separation or reduced pressure principle backflow prevention device shall be installed after the metered flow of any service connection or within any premises where, in the judgment of the City or the Missouri Department of Natural Resources, the nature and extent of activities on or in the premises, or the materials used in connection with the activities, or materials stored on or in the premises, would represent an immediate and dangerous hazard to health should a cross connection occur, even though such a cross connection may not exist at the time the backflow prevention device is required to be installed. This includes but is not limited to the following situations:
 - A. Premises having an auxiliary water supply, unless the quality of the auxiliary water supply is acceptable to the City and the Missouri Department of Natural Resources.
 - B. Premises having internal cross connections that are not correctable or intricate plumbing arrangements which make it impractical to ascertain whether or not cross connections exist.
 - C. Premises where entry is restricted so that inspection for cross connection cannot be made with sufficient frequency or at sufficiently short notice to assure that cross connections do not exist.
 - D. Premises having a repeated history of cross connections being established or re-established.
 - E. Premises, which due to the nature of the enterprise therein, are subject to recurring modification or expansion.
 - F. Premises on which any substance is handled under pressure so as to permit entry into the City's or customers water supply system, or where a cross connection could reasonably be expected to occur. This shall include handling of process waters and cooling waters.
 - G. Premises where materials of a toxic or hazardous nature are handled such that if backsiphonage or backpressure should occur, a serious health hazard may result.
8. The following types of facilities fall into one (1) or more categories of premises where an approved air-gap separation or reduced pressure principle backflow prevention device is required by the City and/or the Missouri Department of Natural Resources to protect the public water supply and must be installed at these facilities unless all hazardous or potentially hazardous conditions have been eliminated or corrected by other methods to the satisfaction of the water supplier and the Missouri Department of Natural Resources:
